Phone: +998 (93) 333-46-31

I am a responsible and motivated Frontend Developer who learns quickly and adapts easily.
I always aim to grow, improve, and deliver my best in every task I take on.
I believe in consistency, clear communication, and teamwork.
Confident in my skills and always ready to face new challenges.

Work Experience

Frontend Developer & Instructor
Freelance / Self-employed
2023 – Present

- Started a focused journey into frontend development in 2023, quickly mastering core technologies such as HTML, CSS, JavaScript, and React.
- Currently working as a Frontend Development Instructor, helping others build strong foundations in UI/UX and modern web practices.
- Prepared and delivered structured lessons on responsive design, component-based development, and best coding practices.
- Recognized for clear communication, patience, and the ability to simplify complex topics for students with various learning levels.
- Continuously improving both technical and teaching skills, while actively building personal and collaborative web projects.
